

The masterpiece that rules all the others

Q.P. FIBER POST PLUS

3 reasons that you should choose Q.P. Fiber Post PLUS:

1. Excellent radiopacity and light penetration
2. High flexural strength
3. High quality with resonable price

Advantages

- Good bonding strength caused by SILANE finishing on post surface
- Higher transparency provides superior aesthetic and light transmission, and is advantageous for dual cure cementation
- Being anticorrosive and having passed all biosafety tests, it ensures bioaffinity and safety
- Passed all the tests including cytotoxicity test, ames test, acute system toxicity test and oral mucosal irritation test
- Can be atraumatically removed in minutes
- Tapered apical shape conserves dentin
- 10 different sizes and dedicated drills are available
- Elastic bending strength similar to that of dentin helps to protect teeth without causing root canal fracture
- Enhanced flexural strength (>1,800Mpa)
- Optimal Radiopacity (>330% AI equivalent) (ISO4049)

Technical data

Elastic modulus similar to that of dentin helps to protect teeth without causing root canal fracture

Heightened flexural strength (>1,800Mpa)

Optimal radiopacity (>330% AI equivalent) (ISO4049)

Excellent radiopacity

Perfect light penetration

Safe drill of reamer shape
